INVESTMENT MANAGEMENT COMPANY'S REPORT

The manager of the investment fund CBL Baltic Sea Equity Fund (hereinafter the Fund) is investment management company CBL Asset Management, registered office Republikas laukums 2a, Riga, LV-1010, registration number 40003577500 (hereinafter the Company). The Company's operating license number is 06.03.07.098/367.

The investment objective of the Fund is to achieve long-term capital appreciation by investing primarily in the shares of those issuers that are registered in or whose principal activities are carried out in the Baltic Sea region. The Fund's return is generated through a combination of share price appreciation and dividend income. The currency of the Fund is euro.

Global stock markets demonstrated strong performance in the first half of 2019. US equities rallied 18.3%, while European equities represented by broad STOXX Europe 600 index rose 14.0% over the period. In euro terms, the performance varied among the Fund's target markets. The export-led German market (+ 17.4%) was the growth leader, outperforming in response to the ongoing easing of the US-China trade conflict. The second best performer was Denmark (+12.5%), followed by other Scandinavian countries - Sweden (+11.9%) and Norway (+11.1%). The latter market gained support from oil prices, with Brent crude surging more than 23%. On the other hand, Finland (+7.4%), Poland (+3.7%) and the Baltics (+3.3%) showed less impressive but still good absolute returns.

The Fund gained 9.36% in the first half of 2019. From the geographical perspective, German, Swedish and Danish securities contributed the most; while Norway, the Baltics, Finland and Poland exerted negligible influence on the Fund. During the reporting period, the allocation to German equities decreased by 2.6%, while relative weight of Danish and Swedish equities increased by 2.5% and 2.2%, respectively. The changes in the proportions in other regions were insignificant. At the end of the year, the cash position stood at 2.0% of the Fund's net assets.

The Fund's net assets in the first half of 2019 increased by EUR 105,378 and amounted to EUR 3,196,923 at the end of the six-month period ended 30 June 2019. The gross value of assets at 30.06.2019 was EUR 3,202,842. In turn, the value of the Fund's unit in the reporting period increased by EUR 3.62, reaching EUR 42.31. The total return of the Fund in the first half of 2019 was positive 9.36% in euro terms at the ECB rates and 9.36% in the fund's base currency (in euro) at the closing rate observed in the financial markets.

In the reporting period, the total management expenses amounted to EUR 40,553, which does not exceed the ceiling of 4.00% stated in the Fund Prospectus. The investment management company fee amounted to EUR 32,697, custodian fee – EUR 2,943, other Fund management expenses – EUR 4,913.

During the reporting period there have been no significant events affecting the value of the Fund's unit price. Looking ahead, we will be closely following the developments around global trade disputes, or so-called "wars", as well as scrutinizing corporate earnings releases for the second quarter of 2019. At the moment, market expectations are modest, which could potentially open the door to positive surprises. Another important factor is the recent sharp drop in key benchmark interest rates that could support risk assets. Against the backdrop of a global economic slowdown, in June both the ECB and the US Fed expressed readiness for monetary stimulus. As a result, benchmark rates in the euro area plunged below their historic lows. From a macroeconomic point of view, Europe's leading business indicators have improved over the past two months, but manufacturing continues to be a drag. We also see significant regional disparities, with major export powerhouse Germany looking particularly weak.
