4. Enter information

A screenshot of a mobile application interface titled "Enable User". At the top, there is a back arrow and the text "Enable User". Below this is the instruction "Log In to Handy Trader Account". There are three input fields: "Username" with the text "p4m408" entered, "Password" with seven dots, and "Your current brokerage account password". A teal "CONTINUE" button is positioned below the password fields. At the bottom of the screen, a numeric keypad is visible with digits 1 through 0 and symbols for backspace and search.

Enter your Username and Password and tap **Continue**

5. Review mobile phone number

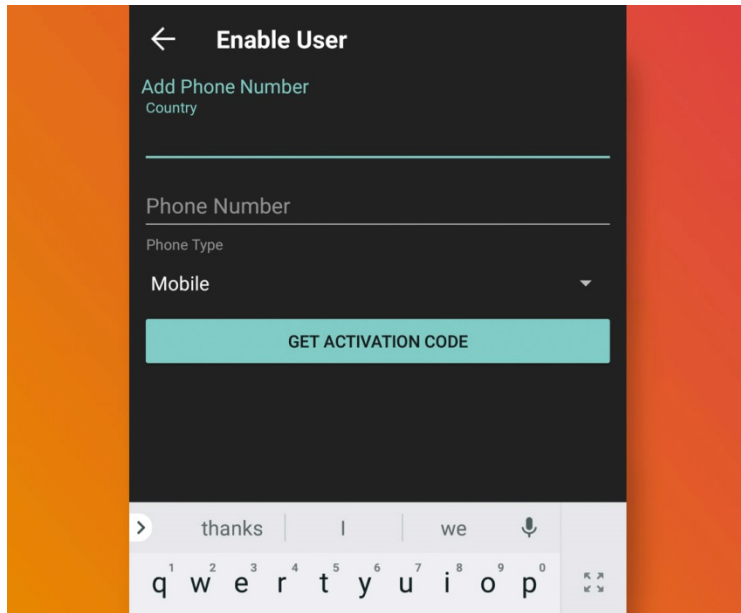

A screenshot of a mobile application interface titled "Enable User". At the top, there is a back arrow and the text "Enable User". Below this is the instruction "Select Phone Number". A list of phone numbers is displayed, with the first one, "+1 (416) 443-1111", selected and marked with a green checkmark. The rest of the list is obscured by a dark grey bar. At the bottom of the screen, a numeric keypad is visible with digits 1 through 0 and symbols for backspace and search.

The default mobile phone number on record for your account will be already selected. If you are not able to receive text messages (SMS) on that number, you should choose a different one from the list (if applicable) or add a new one.

6. To add a new phone, tap **Add Phone number**, enter the new number and the correspondent country.

Once you have selected your preferred mobile number from the list or added the new mobile number, tap **Get Activation SMS**

7. Activate

You will receive an SMS message containing an Activation Token. Enter it in the Activation Code field. According to your phone operating system and hardware capabilities, you might be prompted to provide or define as well the security element to be used to secure the app (Fingerprint, Face ID, PIN).

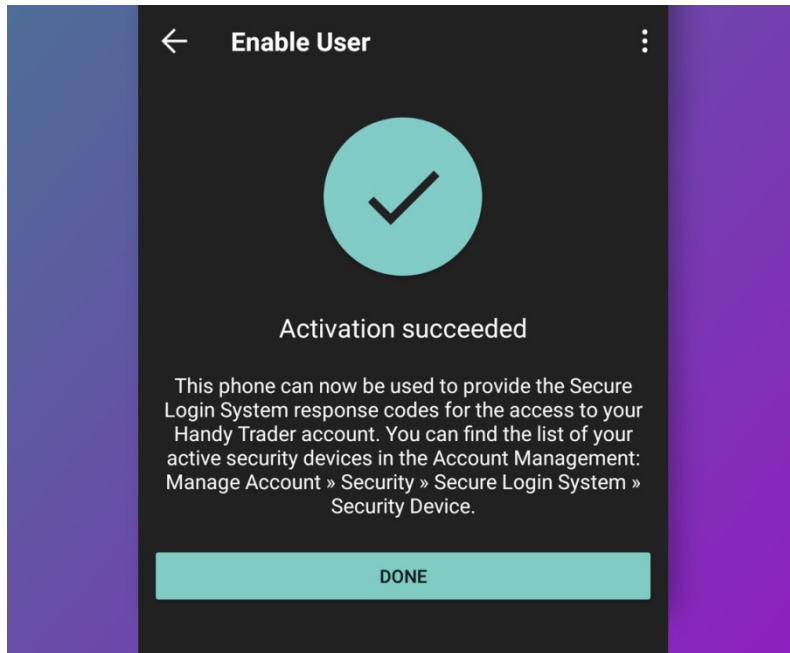

Once done, tap **Activate**
