Comprehensive costs indicator

The comprehensive indicator of costs has been calculated on the basis of operations performed per year:

- current account opened;
- credit card opened and used every month (not including credit limit);
- Internet banking site activated and used every month; **35,88**
- means of authentication issued;
- on the Internet banking site, unlimited transfers in EUR made to one's own account and/or 50 transfers to another person's account with Citadele banka;
- The calculation takes into account the assumption that a customer only makes purchases using a credit card and not use for cash withdrawals and transfers.
