What is this product?

Type: Shares of a Sub-Fund of MULTI UNITS FRANCE, a SICAV.

Term: The Sub-Fund is open-ended.

AMF Classification ("Autorité des Marchés Financiers"): Eurozone country equities

Objectives: The Fund is a passively managed index-based UCITS.

The Fund's objective is to replicate, both upwards and downwards, the performance of the MSCI Greece IMI + Coca-Cola 20-35 Net Total Return Index (net dividends reinvested) (the "Benchmark"), denominated in euro (EUR), and representative of the performance of large, mid and small caps domiciled and/or listed in Greece, while minimising the Tracking Error between the Fund's performance and that of its Benchmark.

The expected Tracking Error under normal market conditions is set out in the Fund's prospectus.

More detailed information on the MSCI indices can be found on the MSCI website (www.msci.com).

The Fund aims to achieve its objective through indirect replication, i.e. by entering into one or more OTC swaps (forward financial instruments, "FFI"). The Fund may invest in a diversified portfolio of international equities, the performance of which will be exchanged against that of the Benchmark through the FFI.

The current composition of the portfolio of securities held by the Fund is

shown on the amundietf.com website.

Furthermore, the indicative net asset value is shown on the Reuters and Bloomberg pages of the Fund and may also be shown on the websites of the Fund's stock exchanges.

The Fund is eligible for the French Equity Savings Plan (PEA) and therefore invests a minimum of 75% of its assets in shares of companies in the European Union.

Intended retail investors: This product is intended for investors, with a basic knowledge of and no or limited experience of investing in funds, seeking to increase the value of their investment and to receive income over the recommended holding period and who are prepared to take on a high level of risk to their original capital.

Redemption and transaction: Shares may be sold (redeemed) as stated in the prospectus at the respective dealing price (net asset value). Further details are provided in the MULTI UNITS FRANCE prospectus.

More information: Further information regarding the Sub-Fund, including the prospectus and financial reports, is available free of charge on request from: Amundi Asset Management - 91-93 boulevard Pasteur, 75015 Paris, France.

The net asset value of this Sub-Fund is available at www.amundi.fr.

Depository: SOCIETE GENERALE.

What are the risks and what could I get in return?

RISK INDICATOR

Lowest risk

Highest risk

The risk indicator assumes you keep the product for five years.

Additional risks: Market liquidity risk could amplify the variation of product performances.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the MULTI UNITS FRANCE prospectus.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

PERFORMANCE SCENARIOS

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performance of the Sub-Fund over the past five years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

What you get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

Moderate Scenario	What you might get back after costs Average return each year	€
Favourable Scenario	What you might get back after costs Average return each year	€

The figures shown include all the costs of the product itself, but may or may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

This type of scenario occurred for an investment using a suitable proxy.

What happens if Amundi Asset Management is unable to pay out?

A separate pool of assets is invested and maintained for each Sub-Fund of MULTI UNITS FRANCE. The assets and liabilities of the Sub-Fund are segregated from those of other funds as well as from those of the

Management Company, and there is no cross-liability among any of them. The Sub-Fund would not be liable if the Management Company or any delegated service provider were to fail or default.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10,000 is invested.
