What is this product?

Type

Undertakings for Collective Investment in Transferable Securities ("UCITS")

Term

This Fund has no maturity date. The Fund may be terminated in the circumstances noted in the Prospectus.

Objectives

The Fund aims to increase the value of your investment over a rolling period of any five years. However, there is no guarantee that this will be achieved and your capital is at risk. The Fund is an actively managed, diversified portfolio that will invest at least 80% in Shares of companies that are located in or earn substantial revenue from global emerging markets. On occasion it may also invest in other financial instruments, for example other funds and rated or unrated Bonds and Derivatives. The Fund is an Article 8 Fund under SFDR. The Investment Manager will consider how well companies manage environmental, social and governance ("ESG") factors. The companies will either have strong or improving ESG characteristics. The Fund may borrow on a limited basis (up to a maximum of 10% of the value of the Fund). Leverage is not part of the investment strategy of the Fund. The Fund's base currency is USD but its investments may be

priced in other currencies. The Benchmark, for performance comparison purposes only, is the MSCI Emerging Markets Index. Derivatives may be used to convert the value of those investments into USD. You may buy or sell Shares in the Fund each Business Day (except bank holidays in the UK and Ireland). This Share Class is accumulating. Your portion of any income received will be reinvested. This will be reflected in the value of your Shares.

What are the risks and what could I get in return?

Risk Indicator

Lower Risk

Higher Risk

The risk indicator assumes that you keep the product for 4 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity of the PRIIPs manufacturer to pay you.

Further information on risks is detailed in the prospectus available at www.hermes-investment.com or on request from Hermes Fund Managers Ireland Limited (the "Manager"). This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment between June 2021 and February 2024.

The moderate scenario occurred for an investment between June 2015 and June 2019.

The favourable scenario occurred for an investment between February 2014 and February 2018.

Recommended holding period: 4 years

Example Investment: EUR 10,000.

What happens if Hermes Fund Managers Ireland Limited is unable to pay out?

You may face financial loss should the Manager or the Depositary default on their obligations to the Fund. In the event you suffer any such loss, there is no compensation or guarantee scheme in place which may offset all or any of such loss. In the event of insolvency of the Manager or the Depositary, the Fund's assets are segregated from the assets of the Manager and the Depositary and will not be subject to a claim by the liquidator of the Manager or the Depositary.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year, you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 4 years
Total costs	134 EUR	724 EUR
Annual cost impact (*)	1.3%	1.4% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8.8% before costs and 7.4% after costs.
